Introducing **AKRHD** **NextGen** **Engineering**

About Us

As of July 2024, AK Engineering has rebranded as AKRHD NextGen Engineering, marking a new era of innovation and excellence in engineering and construction services. With over a decade of experience, our company has established itself as a leader in mechanical, civil, electrical, transportation and logistics, excavation work, and process engineering sectors.

At AKRHD NextGen Engineering, we are committed to delivering projects promptly and effectively to a diverse range of clients. Our team of experts is dedicated to ensuring exceptional results, exceeding expectations, and fostering long-lasting relationships.

Vision

To be the most preferred Engineering Company in the industry with special focus and emphasis on delivering quality products and services to our clients.

Mission

To continuously provide professional services in the field of Industrial and Infrastructure Development, adhering to highest quality, health, safety and environmental norms and to continuously meet the project delivery schedule.

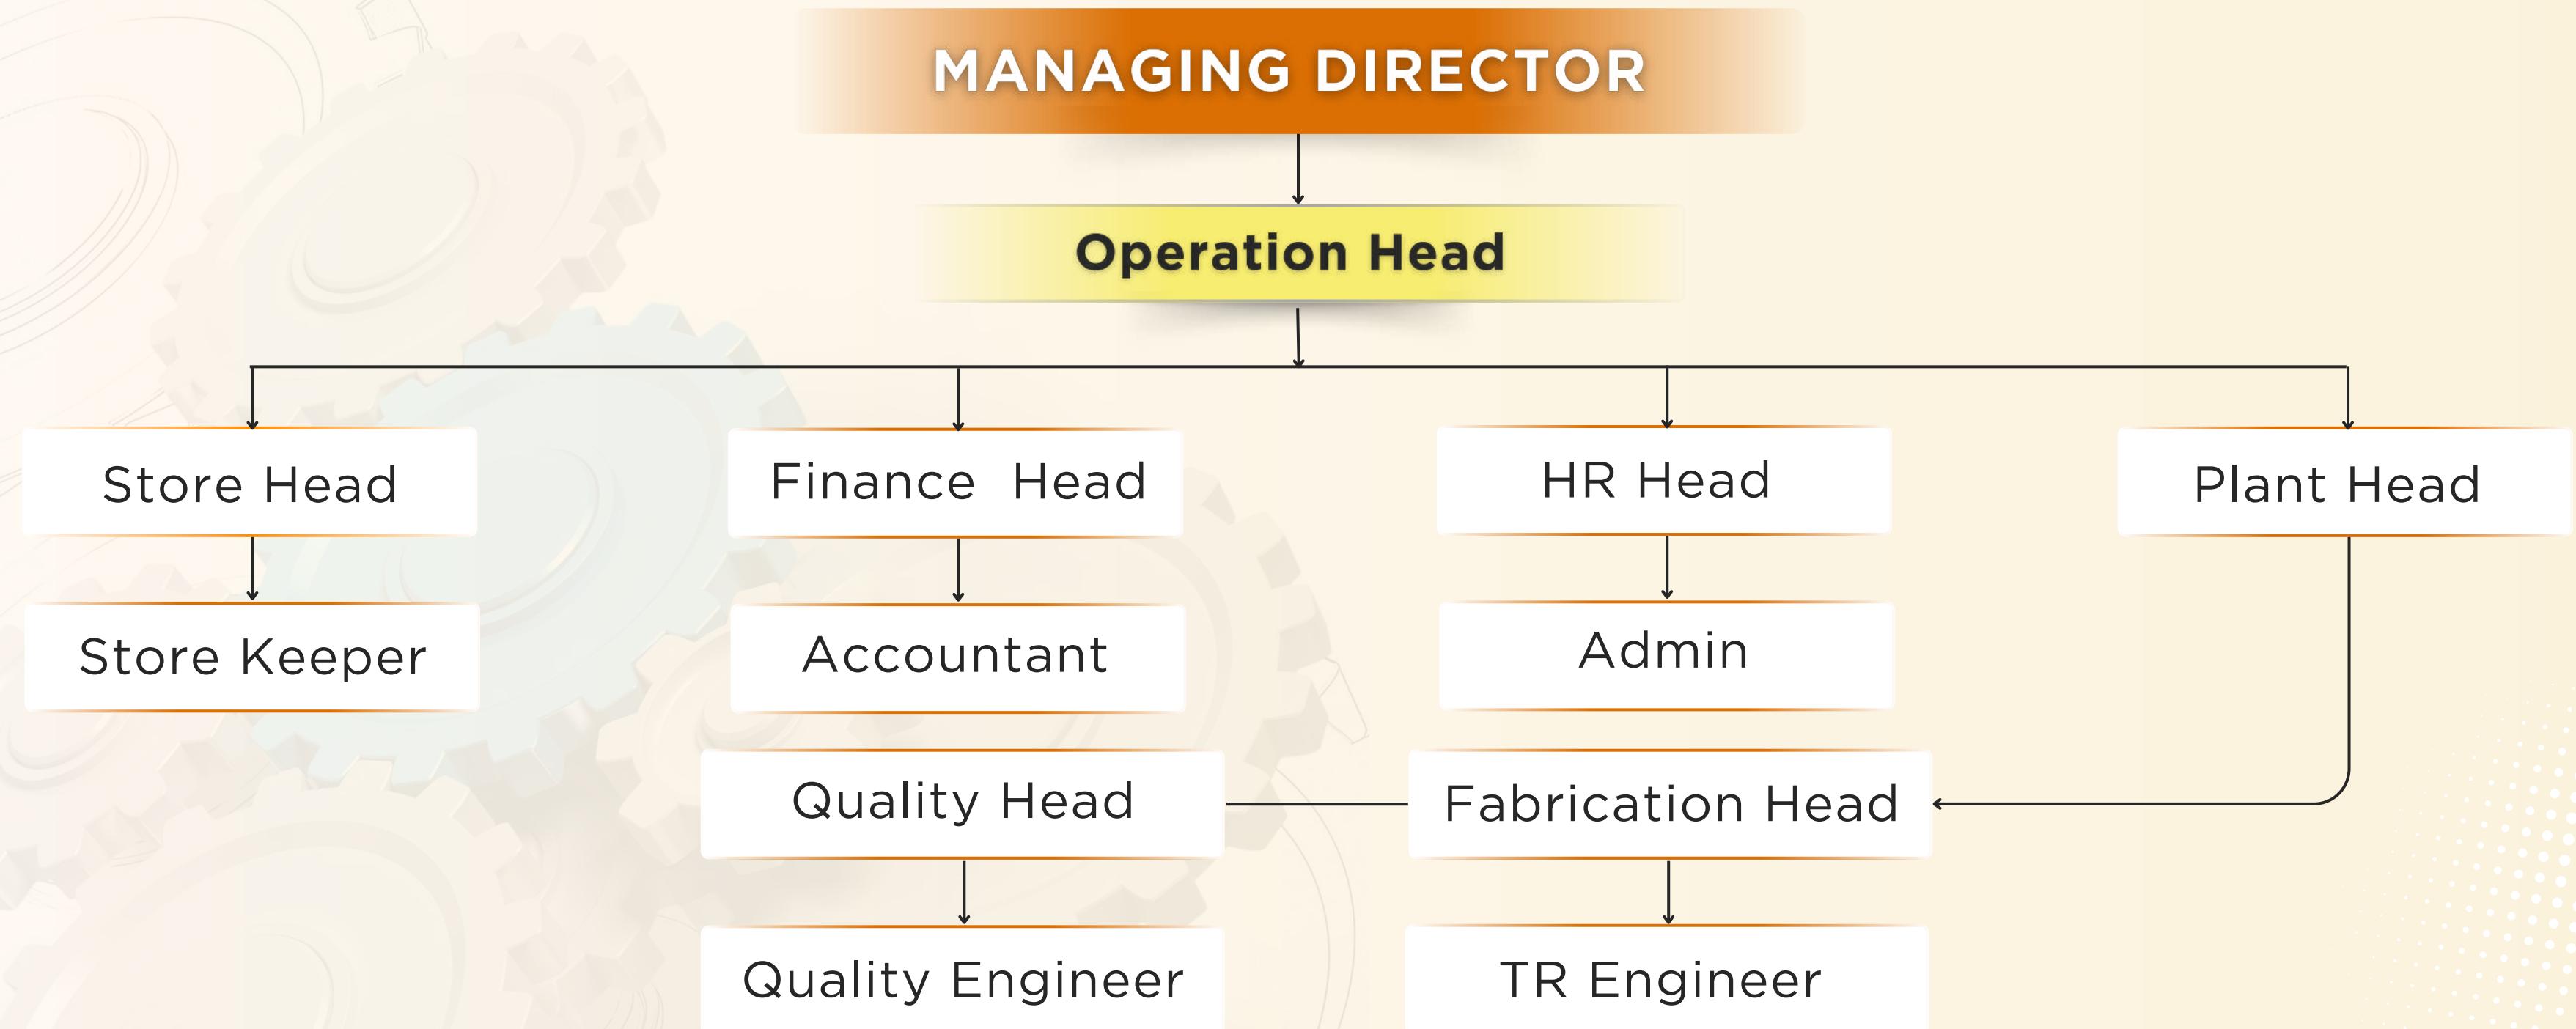

Mr. Rajib Lochan Das
Managing Director

Our Leadership

At AKRHD Nextgen Engineering, we are driven by a commitment to innovation and excellence. Our founder, Mr. Rajib Lochan Das, brings with him over a decade of engineering experience, supported by a Bachelor's degree in Engineering. His leadership reflects a strong track record of delivering cutting-edge solutions and a clear vision to lead a team of experts in executing transformative projects that have a lasting impact on industries and improve lives.

Organization Chart

Our Services

Mechanical Engineering

Specializing in all aspects of mechanical construction and maintenance.

Civil Engineering

Delivering complete civil construction solutions from design to execution.

Electrical and Instrumentation Engineering

Handling installations, testing, and commissioning of electrical systems.

Project Management

Ensuring projects are delivered on time and within budget through sophisticated management techniques.

More Services

Transportation & Logistics

Provide reliable and efficient transportation and logistics solutions to ensure seamless delivery.

Excavation Work

We specialize in expert excavation services, using state-of-the-art equipment & techniques for efficient & safe work.

Piping Solutions

We specialize in both above-ground and underground piping systems, utilizing materials such as HDPE, MDPE, Stainless Steel (SS), Carbon Steel (CS), and Low-Temperature Carbon Steel (LTCS).

Our Unique Selling Proposition

Integrated Services

From pre-project activities to final realization, we offer a full spectrum of construction and consulting services under one roof.

Advanced Technology

Utilization of the latest technology and machinery to ensure superior quality, efficiency, and precision in execution.

Customized Solutions

Tailored project approaches to meet specific client needs, ensuring optimal outcomes and client satisfaction.

Proven Track Record

A history of successful project completions across various sectors, showcasing reliability and expertise.
