

WORK COMPLETION CERTIFICATE

To:

AK Engineering

131/66, Purnaprasad, Bhadrak, Odisha - 756171

Subject: Work Completion Certificate for A/G & U/G Piping Works at Dhamara LNG Terminal Pvt. Ltd.

Dear Sir/Madam,

This is to certify that **AK Engineering** has successfully completed the scope of work awarded by **CTCI Corporation** for the **Above Ground (A/G) and Underground (U/G) Piping Works**, including **associated structural supports**, as part of the **Regasification Facility** at **Dhamara LNG Terminal Pvt. Ltd., Dhamara, Odisha, India**.

The scope of work executed by AK Engineering included, but was not limited to:

- Fabrication, erection, and installation of **A/G and U/G piping systems** in accordance with project specifications, drawings, and applicable codes.
- Installation of **pipe racks, sleepers, supports, and related structural steel components**.
- Coordination for **NDT (Non-Destructive Testing), hydrotesting, flushing, and drying**.
- Execution of **pre-commissioning and commissioning support activities** as per project requirements.
- Adherence to the **HSE and quality standards** laid out by CTCI and the client.

The work was carried out in a professional manner, meeting all the technical, quality, and safety standards. The entire scope under AK Engineering's responsibility has been **completed up to commissioning stage** and has been handed over in accordance with project timelines.

We acknowledge and appreciate the efforts and cooperation extended by AK Engineering's team during the execution of the project.

This certificate is being issued upon request and for your internal records and future reference.
